**What's new in Jaspersoft Version 6?**

**Dashboards:**  
A single web environment for creating visualizations, with a mash-up of Reports, Ad Hoc Views, and web pages

**All New JasperMobile Support:**  
View interactive reports and Dashboards from your smartphone or tablet with the JasperMobile app

**Visualize.js:**  
Embed Reports and Dashboards directly into highly-interactive web pages

**Expanded Multi-organization Administration:**  
New tools to manage attributes, export/import, and scheduling across multiple organizations

**This is a development server and may not be used for production deployments.**
